Dear Parent/Guardian

Inhalers and Epipens in School

Some parents have indicated that their child suffers with asthma and/or allergies. Please be aware that we do not hold inhalers or epipens in school for children unless accompanied by a Healthcare Plan and Permission to Administer Medicine Form.

If your child uses an inhaler, please ensure that they bring it each day for school. If your child requires use of an epipen due to potential allergic reaction, please ensure that they carry this on them **and** also contact reception to inform them in order that we generate a Medical Awareness Form.

Thank you for your cooperation.

Shiv Ressel
Assistant Principal
