Dear Parents and Carers

Parent Webinar

A number of parents have signalled a desire for help in getting students to adopt an optimistic approach to studying independently at home.

We have a way to help. Through our partner Elevate Education, we are offering parents the opportunity to attend an online webinar on Tuesday 12th May.

It is a 60-minute session that will delve into practical strategies to show parents how to improve their child's time management, study skills and boost motivation while studying independently at home. Elevate Education will also share best practices on how parents and teachers at their 3000 client schools are improving their students' metacognitive skills.

Details of the event are as follows:
