Learning must continue

The government has announced that exams will not take place in May/June, but they are likely to happen at some point and “Pupils will get the qualifications they need”.

So we keep going!

Even if you are not in school, you remain in a period of compulsory education.

Compulsory Education is defined as:

“A period of education where every young person up to the age of 18 years is required to access and engage in”

Learning outside school

- Students are expected to be studying at home during any time away from school.
- The less you do, the more you'll forget!
- Parents will encourage you to work during the hours of the school day.
- Use the huge amount of online resources, past papers, revision books and google classroom resources provided by your teachers.
- Be relentless in your pursuit of excellence.

Many schools don't have these – you do!

The PiXL Mathematics App (PMA)

The PMA is an online assessment system that identifies your strengths and areas to develop in Mathematics.

The app provides therapy videos to deal with any issues and the means for you to reassess yourself to show that you are making progress and continually moving forward.

The app can create lots of questions around the same topic area that has been identified as an area to develop. This enables users to re-test a particular topic many times to ensure they understand

Lit power in the palm of your hands.

The PiXLit app is an online assessment system that identifies your strengths and areas to develop across key texts.

Strengthen your understanding of selected texts by engaging in a range of interactive activities that revolve around character learning, quotation learning, events and happenings, and terminology.
