- Responsibilities – Teaching & Learning / Pupil Outcomes

Ted is a school improvement professional, monitoring quality of education and co-ordinating school support where needed in his current role. He has experience of working with both local authority schools and academies.

He has 20+ years' experience of teaching and leadership within schools across all sectors, undertaking various pastoral and curriculum roles in boarding schools, a City Technology College and in an academy leadership team.

He led a partnership delivering a large vocational learning programme and co-ordinated schools working together to maximise the impact of arts funding on learning. He is interested in the potential of technology transforming education, e-learning and creative teaching across the curriculum.

He enjoys supporting teachers in improving their practice through effective coaching and embedding a culture of pupil focused, personalised learning.
