**KEEP UP THE GREAT WORK!!**

# Graft Club

This is our Graft fitness training in action from our extended day programme. Great work in a heart bursting 40 minute session.

# Science Club

Science club this week the task was to build their own version of the classic bell jar model. (in the background)  
This shows how the structures in our chest move to change volume and air pressure to cause air flow into the lungs. The pupils used everyday items to build their models with a great deal of success. Well done guys!

# Congratulations

We would like to say big well done to Kai on his ACF duty.

We would also like to say well done to Nate who recently became motocross champion, performing to high levels, receiving sponsorship for his equipment and bike.
